RATIONALE

The management of bladder cancer and upper tract urothelial carcinoma is continuously evolving due to the advent of new technologies and minimally invasive surgery.

The aim of the Meeting is to elucidate and debate the diagnostic, clinical and surgical management of complex uro-oncological cases, with a particular focus on urothelial cancers.

The conventional open surgery, as well as the minimally invasive and endoscopic approaches, will be performed during a fascinating Live Surgery session.

The therapeutic controversies and the "pro & cons" of these procedures will be interactively discussed in the plenary room thanks to the presence of international opinion leaders.

PROGRAM

12:30 - 13:00 LIGHT LUNCH BUFFET

13:00 - 13:10 WELCOME

Stefano Carossa
(Director of Department of Surgical Sciences, University of Torino)

INTRODUCTION

Paolo Gontero

13:10 - 19:00 CASE PRESENTATION - Live Surgery session

Moderators in auditorium: Peter Black, Manfred Wirth, Paolo Gontero

ROOM A: Open Radical Cystectomy - step by step Urinary Diversion

Arnulf Stenzl, Hein Van Poppel

ROOM B: Robotic Radical Cystectomy Intracorporeal diversion

Joan Palou Redorta, Michele Gallucci

ROOM C:

Operation 1: "TURB: how should you do it"

Marek Babjuk

Operation 2: "TURB with PDD: how I do it"

Fred Witjes

**Operation 3: "Modern conservative treatment of UTUC:
from confocal laser endomicroscopy to laser ablation"**

Alberto Breda

19:00 - 19:10 CONCLUSIONS & FAREWELL
